INMARTECH 2016

Institute of Marine Research, Norway are proud to present the 2016 INMARTECH meeting at Grieghallen in Bergen, Norway.

The 10th International Marine Technician, INMARTECH 2016, Symposium will be held at Grieghallen, in Bergen, Norway 4.- 8.October 2016. INMARTECH symposia were initiated with the purpose of providing a forum for marine technicians to meet and exchange knowledge and experiences, thereby aiming to improve equipment performance, deployment, and operational techniques during scientific cruises on research vessels.

INMARGYVER Award

The INMARTECH 2016 committee will continue the INMARGYVER Award started in Oregon 2014.

Have you saved the day at sea in a way that would make MacGyver proud? Send in a picture and description of your best 'field fix' to inmartech2016@imr.no.

Welcome to Bergen

Bergen was founded in 1070 by King Olav Kyrre sailing into the harbor, and has ever since attracted people from all quarters of the world. Throughout its history Bergen has been a leading international trade and shipping town.

Bergen is today the center for marine, maritime and petroleum-related research and industrial clusters which are among the most complete and advanced in the world.

Bergen is surrounded by seven mountains, fjords and beautiful and lush scenery. By taking the funicular to Mount Fløyen or the cable car to Mount Ulriken you get a beautiful view of the city, the fjords and the islands around Bergen.

When visit Bergen you must also see beautiful Bryggen which is Unesco World Heritage listed.
