

A Polar Research Infrastructure Network for Global Ocean Sustainability

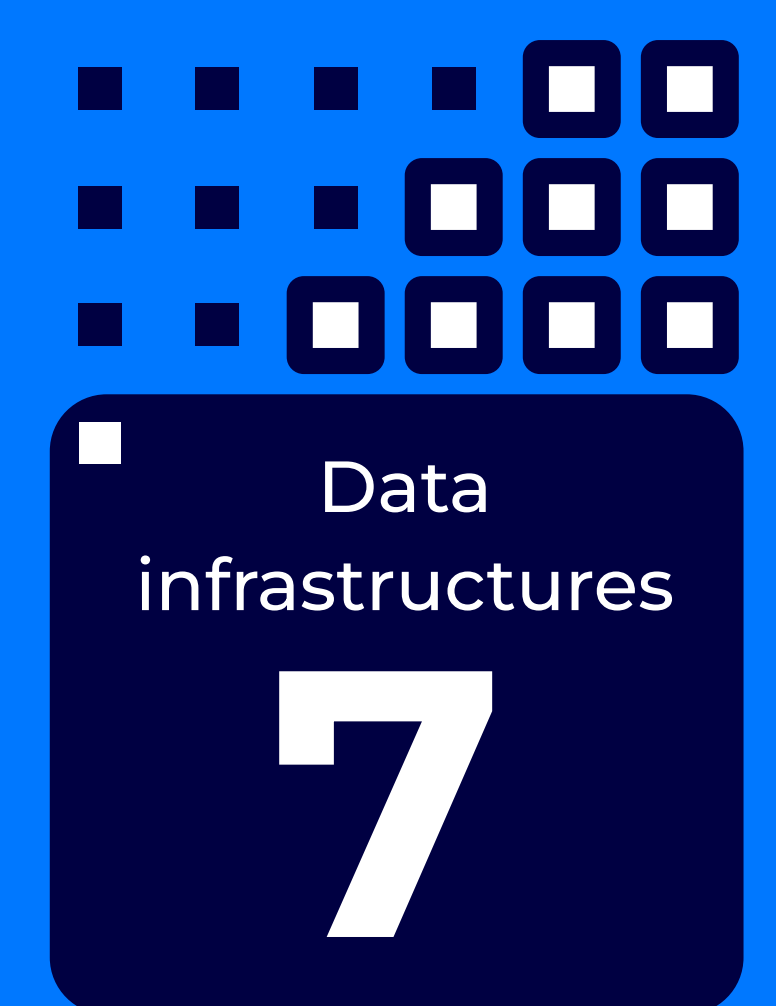

Verónica Willmott¹, Nicole Biebow¹, and the POLARIN Consortium
¹Alfred Wegener Institute, Bremerhaven, Germany

POLARIN is a European initiative uniting over **50** partners to provide access to a unique network of **64** world-class Arctic and Antarctic research infrastructures

Our Mission

POLARIN supports cutting-edge polar science by:

- Providing efficient, challenge-driven **Transnational Access (TA)** to top-level infrastructures
- Offering **Virtual Access (VA)** to data and services
- Delivering tailored **training** and supporting new users
- Enhancing **data services** and customised products
- **Promoting RI services** and strengthening community engagement

Upcoming Opportunities

- Next **Call for Transnational Access** Opens 1 September 2025!
- **POLARIN Data Hub:** Launching in September 2025

Stay Connected
