**1300 158 433**

Maritime Survey Australia offers a comprehensive range of independent marine surveying and consultancy services. As the maritime industry becomes ever more complex, it's good to know you have a competent partner in Maritime Survey Australia.

All of our Australian Maritime Safety Authority Accredited Marine Surveyors have diverse backgrounds gained from working in the industry, at government regulators and at sea. Research Vessel Condition and Pre-Purchase Surveys, Consultancy, Tender Specification and Evaluation are just some of the services that we can provide you with.

If you are planning on buying or chartering a new vessel, get in touch with us and benefit from the extensive experience that we have to offer.

We are able to provide the following services as required:

- New Build Tender Specification and Evaluation**
- Periodic Survey**
- Initial Survey Services**
- Plan Approval Services**
- Naval Architectural Services**
- Compass Adjustment**
- New Build & Refit Project Management**
- Stability Assessments**
- Maritime Consultancy**
- Safety Management System Audit (ISM Code)**

We will remain impartial in all of our business dealings, and we will never conduct business in a manner which could place our business integrity or impartiality at risk or question.
